Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner explained that regarding claims 1, 2 and 15, the Prior Art references JP 10-297955 and JP 11-029857 (not considered before) disclose the limitation of amount of silicon present in the protective film of a Plasma Display Panel is less than or equal to 200 ppm and hence the claims with limitation 'silicon less than 500 wt. ppm and greater than 150 wt. ppm' are not allowable. The Examiner proposed that if the claims are amended to recite 'addition of silicon less than 500 wt. ppm and greater than 200 ppm', claims 1, 2 and 15 will overcome the prior art and will be in condition for allowance. The Applicant's representative Ms. Joanna K. Mason agreed and authorized the Examiner to write a Supplemental Examiner's Amendment amending claims 1,2 and 15 so that the application is in condition for allowance.
